

FEATURES & BENEFITS

- Modular sections enable configurations from 2,000 up to 10,000 litres
- Top and bottom sections can be used as standalone 2,000 litre compensation buoys
- Designed for assembly & disassembly in the field to increase shipping, storage, inspection, and operational efficiencies
- Heavy duty swivel eyes included on top and bottom ends
- Internal design allows for hawser (chain through) internal configuration
- Highest quality, UV stabilized, watertight, seamless one-piece sections with uniform wall thickness and hot-dipped galvanized internals ensure a robust life expectancy of 15+ years
- Large diameter load plates secured to the shell for maximum load disbursement
- Refined EPS foaming process with over 20 years of experience significantly reduces risk of sinking and environmental contamination
- Multiple indented areas for retro-reflective tape on each modular section ensures high visibility, reduced cost of replacement, and simple reinstallation if a section is damaged
- Available top light, radar reflector, and monitoring systems
