

FEATURES & BENEFITS

- Highest quality, UV stabilized, seamless one-piece construction with uniform wall thickness ensures a robust life expectancy to 15+ years
- Refined EPS foaming process with over 20 years of experience significantly reduces risk of sinking and environmental contamination
- Controlled process to increase thickness of polyethylene at major stress points contributes to overall toughness, rigidity and superb crack resistance
- Impact resistant even at low temperatures means it's suitable for saltwater or freshwater bodies
- Free of internal voids prevents significant water ingress and produces superior structural integrity
- Lightweight and easy to transport reduces assembly time and effort

GENERAL SPECIFICATIONS

Length	96"
Width	24"
Height	16"
Weight	28 lbs.
Total Displacement	1200 lbs.
Approximate Floatation at Indicated Water Line	584 lbs.

MATERIAL SPECIFICATIONS

POLYETHYLENE

Virgin PE material with UV inhibitor

COLOUR

Comes in standard black

EPS FOAM

1 lb/ft.³ density closed cell EPS foam used

AVAILABLE OPTIONS

- Custom Colours
- (Available Options are Subject to Min. Order Quantity)
